

Kwarx[®]

by Arc International

Research Center for Advanced Material

Highly resistant

STRONG

Kwarx[®] is incredibly resistant under food service conditions.

Kwarx strength is obtained from an invisible but very strong bond between the bases, stems and bowls of the glasses, resulting in a perfectly smooth surface which does not have weak points.

Never-ending sparkle

BRIGHT

Kwarx[®] retains its sparkle wash after wash.

Extraordinary brilliance that has been tested in laboratory conditions to withstand more than 2,000 industrial wash cycles.

Completely Transparent

PURE

Kwarx[®] glass seems to vanish, enabling the range of colors in each wine to be fully appreciated.

Kwarx glassware is completely transparent due to the high quality colorless material.

Kwarx[®] adds purity for unparalleled clarity.
